Highlights

Operating Room Light Upgrade Project

SBS provided Inspector of Record Services that just received Substantial Compliance from OSHPD for CHLA's OR Lights Upgrade. We worked with AMB on this project, which entailed the removal of two existing OR lights and med gas in Ortho room 9, Ortho room 8, and Plastics OR 10 for a total of six fixtures removed. The scope consisted of providing new OR lights, medical gas, monitors, controllers and finishes.

Neuro Institute Interior Remodel

Tyler Bashlor, Brent Fieldhouse, Nicholas Wells, and Mike Samaniego of SBS joined the CHLA team to chair a pull planning session to work through sequencing and completion items. The day was spent identifying the remaining tasks with PNG, Jacobs Engineering and the Owner. The intent of this pull planning session was to ensure accountability from the team and a scheduled completion date. Identifying critical activities quickly and following through with coordinated sequencing is what brings value to our client.

SBS LABS

The healthcare construction industry can be very technical and it takes years of experience to accurately navigate through the process. We wanted to use this newsletter as not only reading about what SBS is up to, but also as a tool that can provide helpful information for you on your next OSHPD project. Here is this

week's topic that we've experienced in the past and hopefully is beneficial to you:

Buildup of Frost or Ice on Vaporizers and Pipes due to High Flow Medical Oxygen

Due to COVID-19, many hospitals are seeing increased numbers of patients requiring oxygen or have switched from ventilators to high flow oxygen treatments. However, many hospitals are experiencing a drop in oxygen line pressure, a buildup of frost/ice, etc. The California Society of Healthcare Engineering (CSHE) has issued an advisory to address possible issues with high flow of oxygen and buildup of frost/ice.

[This document](#) provides guidance to Matheson's medical bulk oxygen customers to assist in mitigating the risk associated with their vaporizers being overdrawn due to this increased demand. You can access the subject document through the OSHPD web site under the following link:

<https://oshpd.ca.gov/construction-finance/oshpd-covid-19-resources/>

As SBS LABS continues the journey of formalizing material to share with you, please take a moment to subscribe to our Youtube Channel to stay on top of all of the latest with [SBS LABS](#).

HOSPITAL INSPECTOR CERTIFICATION EXAMINATION NOTICE

Effective January 1, 2020, the new Hospital Inspector Certification Examinations are based on the 2019 California Building Standards Code and referenced standards.

Please refer to the [OSHPD website](#) for the overview of the Hospital Inspector Certification Program, minimum qualifications and the exam application form. New

examinations for Hospital Inspector Class A, B and C are scheduled at a minimum of every six months.

Applications are now being accepted for the Spring 2021 (April/May) exams.

LOS ANGELES AREA
Exams for A, B and C Hospital Inspector Classifications
Dates: April 19-23, 2021 and May 17-21, 2021
Location: Office of Statewide Health Planning and Development
Wells Fargo South Tower
355 South Grand Avenue, 20th Floor
Los Angeles, CA 90071

FINAL FILING DATE – February 1, 2021

See [flyer](#) for more information.

Due to COVID-19, exams are being conducted electronically. All necessary reference code books, standards, plans, and test questions will be provided on a computer and two monitors for each examinee.
